Cinema and Home Entertainment Solutions

"Bringing the Magic of Cinema to Your Living Room"

- At SAS, we are passionate about transforming ordinary spaces into extraordinary entertainment hubs. As a leading provider of state-of-the-art home cinema and home entertainment systems, we specialize in crafting immersive experiences that rival the finest theatres—right in the comfort of your own home. Our mission is simple: to deliver unparalleled audiovisual excellence while ensuring every installation reflects the unique personality and lifestyle of our clients.
- Founded by a team of seasoned technology experts and cinema enthusiasts, SAS has been at the forefront of innovation in home entertainment since its inception. With years of experience under our belt, we pride ourselves on staying ahead of industry trends, leveraging cutting-edge technology, and offering bespoke solutions tailored to meet the needs of modern homeowners.

What We Do:

We design, install, and maintain premium home cinema and entertainment systems that redefine luxury living. Whether you're looking for a dedicated private theatre room or a multi-functional media space, our team works closely with you to create an environment that exceeds expectations.

Our services include:

- 🌀 **Home Cinema Design & Installation:** From 4K projectors and motorized screens to Dolby Atmos surround sound systems, we bring Hollywood-quality visuals and acoustics to your doorstep.
- 🌀 **Smart Home Integration:** Seamlessly integrate your home cinema system with smart home technologies like voice control, automated lighting, motorized shades, and climate control for a truly connected experience.
- 🌀 **Custom Entertainment Rooms:** Create versatile spaces that double as gaming zones, sports viewing areas, or music studios—all equipped with top-tier AV equipment.
- 🌀 **Acoustic Optimization:** Our experts ensure optimal sound quality through precise speaker placement, acoustic paneling, and noise isolation techniques.
- 🌀 **Ongoing Support & Maintenance:** Enjoy peace of mind with our comprehensive aftercare services, including remote diagnostics, software updates, and routine maintenance checks.

Why Choose Us?

1. **Expertise You Can Trust:** Our certified technicians and designers have extensive knowledge of the latest advancements in home entertainment technology. They combine technical expertise with creative flair to deliver results that inspire awe.
2. **Tailored Solutions:** No two homes—or clients—are alike. That's why we take a personalized approach to every project, ensuring each system is perfectly suited to your preferences, space, and budget.
3. **Premium Brands & Products:** We partner with world-renowned manufacturers such as Sony, Samsung, LG, Sonos, Bowers & Wilkins, and more to provide only the highest quality components.
4. **End-to-End Service:** From initial consultation to final installation and beyond, we handle every aspect of the process, making it seamless and stress-free for you.
5. **Commitment to Excellence:** Attention to detail is at the heart of everything we do. We strive for perfection in both functionality and aesthetics, ensuring your new system not only performs flawlessly but also enhances the beauty of your home.

Home Automation and Smart Living

"Transforming Homes, Simplifying Lives"

- 🌟 At SAS, we believe that technology should work for you—not the other way around. As a premier provider of home automation solutions, we specialize in designing and implementing intelligent systems that enhance comfort, convenience, security, and energy efficiency in your living space. Our mission is to empower homeowners with cutting-edge technology that seamlessly integrates into their daily lives, creating smarter, safer, and more sustainable environments.
- 🌟 Founded by a team of tech innovators and home automation enthusiasts, SAS has been revolutionizing residential spaces since its inception. With years of experience in the industry, we pride ourselves on delivering tailored solutions that cater to the unique needs of each client while staying ahead of technological advancements.

What We Do:

We bring homes to life with smart automation systems that adapt to your lifestyle. Whether you're looking to upgrade a single room or create a fully integrated smart home, our team of experts works closely with you to design, install, and maintain a system that aligns with your vision.

Our services include:

- 🌟 **Smart Lighting Control:** Customize lighting scenes, adjust brightness remotely, and schedule lights to turn on/off based on your preferences or time of day—all through a single app or voice command.
- 🌟 **Climate Management:** Integrate smart thermostats and HVAC controls to optimize temperature settings, reduce energy consumption, and ensure year-round comfort.
- 🌟 **Home Security & Surveillance:** Protect your loved ones and property with advanced security systems, including smart locks, video doorbells, motion sensors, and 24/7 monitoring.
- 🌟 **Entertainment Integration:** Seamlessly connect audiovisual systems, streaming devices, gaming consoles, and more for an immersive entertainment experience.
- 🌟 **Voice & App Control:** Use platforms like Amazon Alexa, Google Assistant, or Apple HomeKit to control all aspects of your home with simple voice commands or taps on your smartphone.
- 🌟 **Energy Efficiency Solutions:** Monitor and manage energy usage with smart plugs, solar panel integrations, and real-time analytics to reduce costs and environmental impact.
- 🌟 **Custom Automation Scenarios:** Create personalized routines such as "Good Morning," "Leaving Home," or "Movie Night" that automate multiple devices simultaneously.

Why Choose Us?

1. **Expertise & Innovation:** Our certified professionals are trained in the latest technologies and trends, ensuring you receive innovative solutions that stand the test of time.
2. **Tailored Solutions:** Every home is different, and so are its occupants. We take a personalized approach to every project, crafting systems that reflect your lifestyle and priorities.
3. **Trusted Partnerships:** We collaborate with leading brands such as Lutron, Nest, Ring, Philips Hue, Sonos, and Control4 to provide reliable, high-quality products.
4. **Seamless Installation:** From planning and wiring to programming and testing, our team handles every step of the process, ensuring a hassle-free experience.
5. **Dedicated Support:** Your satisfaction doesn't end after installation. We offer ongoing technical support, software updates, and maintenance services to keep your system running smoothly.

OUR SERVERS

SHARED SERVER is such a great choice for small businesses, blogs and personal websites looking for cost-efficient, easy to use, safe hosting services.

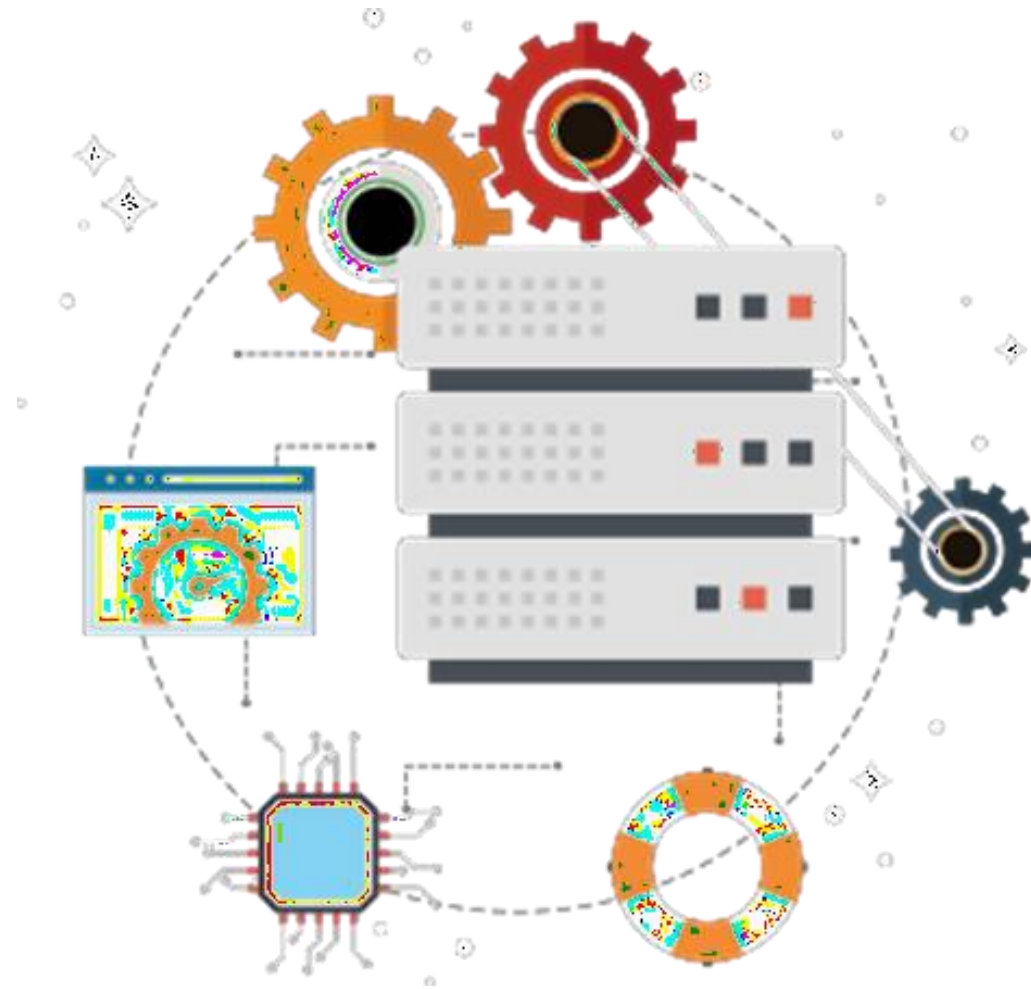

If you aim to build a successful online business, you should choose neither a shared hosting account (because you will soon outgrow the available resources) nor a Virtual Private Server (because it would just be a stopgap solution). What you really need is a **DEDICATED SERVER**- the only hosting environment that can guarantee you absolute hardware and software freedom, full root access, rock-solid, bullet-proof network connectivity and unmetered CPU resources at the same time.

VPS hosting is one of the hosting services you can choose for your website. It represents a mixture between shared and dedicated hosting. Standing for Virtual Private Server, VPS is a virtual hosting solution, which unpacks the benefits of a dedicated server in a shared hosting environment.

WHY SAS HOSTING?

- 99.9% Network Uptime
- 24/7 Technical Support
- 1-hour Response Time
- cPanel Access
- Free Bonuses
- A US / EU Data Center
- No Setup Fees

CLOUD FILE STORAGE

SAS Cloud File Storage offers an on-premise Universal File Access and sync platform with powerful collaboration capabilities and desktop, mobile and web interfaces.

Productivity

Enable productivity across any platform, whether in the office or on the road, to share, collaborate and communicate across organizational boundaries. It provides transparent access to data on any storage.

Control

Protect, control and monitor data and communication across your company. Guarantee compliance with business and legal requirements. Keep your data on servers you own, always. Nothing leaks, not even metadata.

DESIGN SERVICES

- SAS define designs & develops professional turnkey solutions for a wide variety of business sectors. We customize our service to meet the client requirements through system planning, network design, telecommunication systems maintenance & support.
- We have years of practical experience creating elegantly, simple yet powerfully functional, network solutions for businesses of all sizes.

IMPLEMENTATION SERVICES

- SAS implements solid performance traditional networking solutions or ultimate connectivity of wide area networking & wireless solutions.
- We install & manage innovative Server Client Solution, from Entry Level Servers to High End Multi Level Server Solutions.
- We also complete the business solution with Desktops & Notebooks for your day-to-day business activities or custom designed systems to fit your Core Business Requirements.
- Our partnership with leading manufacturers of Computers, Telecommunication Systems & Applications is a guarantee to providing our clients the best solutions that are stable, trustable, secured & cost-effective.

MANAGEMENT SERVICES

- SAS creates seamless, secure solutions that easily handle the complicated & demanding circumstances of your business needs, such as Multiple Remote Locations, Multi-Store Buildings, Hundreds of users & much more.
- We excel at optimizing the performance of your existing infrastructure with advanced technologies & solutions where we help you manage existing technologies with latest techniques to enhance the workflow of your business.

CONSULTANCY SERVICES

- SAS gives a complete analysis & overview of your systems to help in making critical business decisions that includes recommendation to optimize business resources & improve functionality.
- SAS conduct an on-site evaluation of business system & diagnose any existing or potential problems.

MAINTENANCE & SUPPORT

- SAS provides a full support for the existing hardware & software in your business.
- As a complete systems solution provider, we ensure high systems availability, maximum performance, & increased productivity.
- SAS guarantee that the system remains operational at the highest level of performance & availability with technical support available during the term of the Maintenance & Service Contract.

MULTIMEDIA & AUDIO SOLUTIONS

SAS has partnered with high Level Audio & Lighting Distributors so we can Design & Develop total integrated solutions in Audiovisuals, from Simple office Requirements to Major Projects in Restaurants, Hotels, Night Clubs & Pubs for the Indoor & the Outdoor Venues.

VIRTUAL REALITY & 3D SERVICES

- For the last few years, we have built the expertise in the world of 3D, from Design, Laser Scanning, Photography & Printing. Covering a diverse range of industries from engineering & construction, jewelry, health & education, we provide a wide scope of interrelated services, from the design stage until project handover.
- There has been an upsurge in the field of Virtual Reality (VR). So, we wanted to transform our 3D world into reality. It is, primarily, a simulated environment, that is created with the help of software's & presented to the user.
- The user visualizes & accepts it as a real environment. The user can manipulate objects or perform a series of actions. VR mimics the real world & such technology adds great value to your business.

VIRTUAL REALITY & SYSTEM DESIGN

- Virtual reality creates a realistic world & enables the user to explore places. Through Virtual Reality, the user is able to experiment with an artificial environment.
- A Virtual Reality experience, generally, includes three-dimensional images that appear to be life-sized from the perspective of the user. VR can track user's motions, head & eye movements. It, correspondingly, adjusts the images on the user's display in order to reflect the change in perspective.
- Our team of 3D & design experts will create the system design & bring it to life.

WEB AND MOBILE APP DEVELOPMENT

- Our main focus is firstly to understand your business and brand needs. Based upon that, we assist you in setting a clear strategy for corporate identity and web presence. The end product is a combination of the latest in web-based technology development and sophisticated design.
- Whether you're a small business or a large corporation, SAS can help you achieve a solid online presence that reflects your brand and company culture through creating your corporate identity, developing brand recognition and enhancing brand awareness.
- Furthermore, we ensure that your online visitors enjoy an informative, user-friendly and interactive experience that will definitely reflect on the conversion ratio of browsers into customers, whether your goal is to provide information, present products or develop e-commerce and web applications.

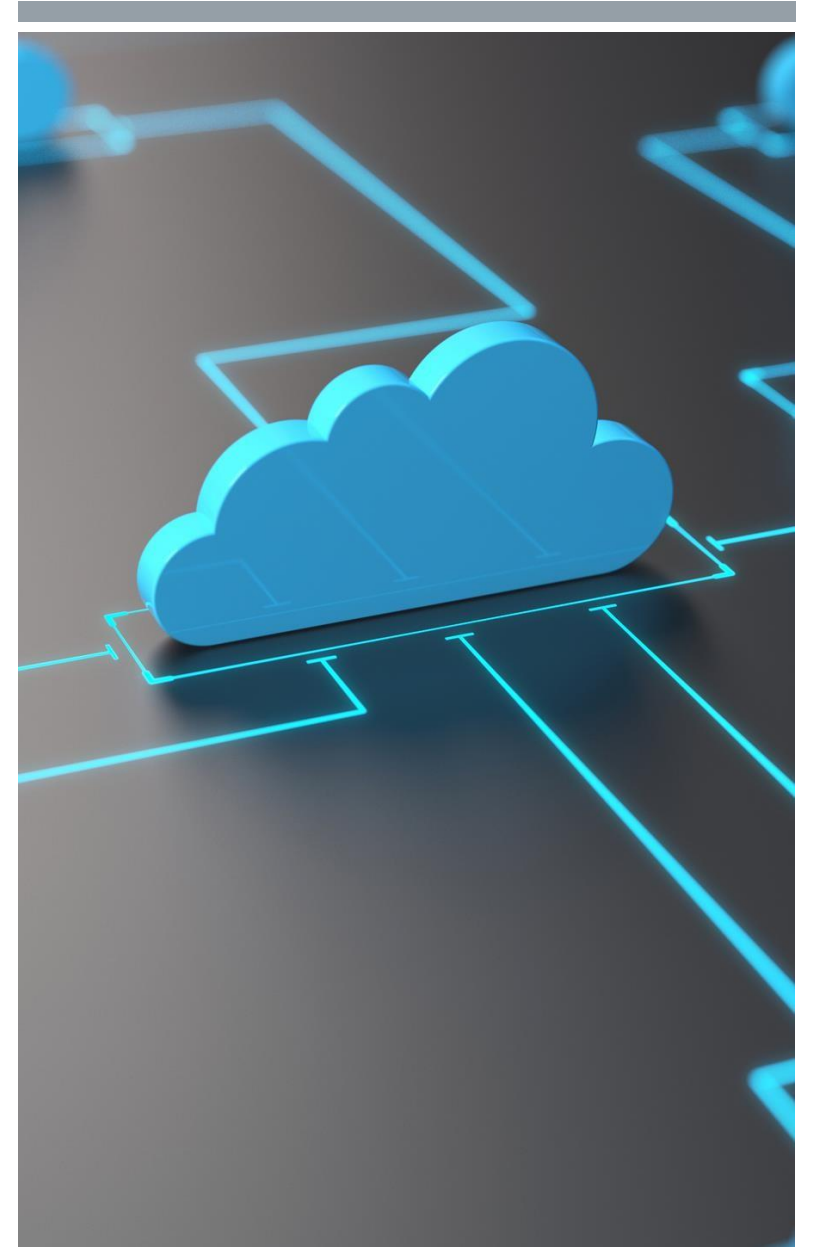

CCTV SECURITY SOLUTION

- We provide a variety of CCTV services including, design, installation, upgrades, maintenance and remote monitoring services.
- Our CCTV system offers:
 - Digital & Network Video Recording
 - Video Analytics
 - Access Control & People Counting
 - Automatic Number Plate recognition
 - Offsite Recording Storage & Retrieval

MANAGED CLOUD SERVICES

- We provide world-class managed cloud services tailored to the needs of your business.
- Replacing traditional expensive on-premises IT infrastructure with the latest technology, security & continuous hassle- & cost-free updates.
- Avoiding extra cost by choosing “Basic”, “Professional” or “Enterprise” plan and pay only for what your company needs.
- Free up time and resources for business expansion, gaining new competitive advantages with our *Managed Cloud Service*.

MANAGED CLOUD BACKUP & BCP SERVICES

- Data is considered as the most expensive asset a company has and we aim to insure its kept safe and highly secured.
- Our solutions support companies achieve their BCP strategy.
- Data is totally encrypted and stored off-site on our cloud farm.
- Our solutions include, Public, Private or Cloud to Cloud backup.
- Easy access to files & readily available in the event of a recovery.
